Mr and Mrs David Houston left on Wednesday last for Edmonton to which point Mr. Houston has been transferred in the employment of the Canadian Bank of Commerce. Mr. Houston was for four years a member of the Local bank staff and both he and his family have endeared themselves to many who wish them every success in their new location.

Someone is always taking the joy out of life. Just as we were going to break forth into maledictions against the condition of the roads in this vicinity, along comes the Road gang who starts putting the trails hereabouts into some semblance of a road. It is high time this matter was attended to so we will refrain ourselves and see what happens.

We are glad to see Miss Curtis has recovered her wonted health and is back on the job again on the school staff.

Miss Bernice Carral of Consort spent the week-end with her mother here.

Charlie Yee spent a few days in Provost the beginning of the week.

Proportional Representation —No. 2

In last week's article on the above subject some of the inequalities of our present system of electing representatives to public office were pointed out, the growth of the P.R. method of election noted, and one or two principles underlying that method outlined. In conclusion it was stated that an endeavor would be made to explain the method of voting and election in this week's article.

First of all, let it be repeated and emphasized that it is the essence of representative government that every voter should be represented in the representative assembly. If a considerable proportion of the electorate come to feel that they have no voice in the Government, the distance is short to that dangerous state of mind which regards political processes as futile and hopeless. The world today, Canada included, requires to guard against this.

The theory of Proportional Representation is that each considerable party or group of opinion should be represented in parliament, or legislature, or municipal council, in proportion to its voting strength—that majorities may rule and minorities be heard. How does Proportional Representation put this theory into practice? The method used is what is known as the transferable vote.

When the ballot with the list of candidates for an office, say a municipal council, is presented, the elector, instead of marking "X" after his choice, or choices if more than one is to be elected, as at present, votes as follows:

(a) By placing the figure 1 after his favorite candidate. The voter may also:

(b) Place the figure 2 opposite his second choice;

(c) Place the figure 3 after his third choice, and so on, numbering as many candidates as he pleases in the order of his preference, and may even so indicate his preference for a larger number of candidates than are actually to be elected.

A candidate, to ensure election, need not poll a majority, but only a certain proportion of the votes cast, called a quota. This quota is the smallest number of votes required to ensure election. For example, in a constituency electing only one member, it is not necessary even now that a candidate should poll all the votes; if he obtains one more than half he secures a majority and is elected, because no one else can poll so many. Similarly, under P.R., it would be necessary in a one-member constituency for the candidate elected to secure a clear majority. In a two-member constituency, a candidate who obtains one more than a third would be elected, for only two candidates can each poll more than a third. If three members are to be elected, it would take one more vote than a fourth of the votes cast to ensure election.

This quota necessary to election is, therefore, found by dividing the total number of votes cast by one more than the number of representatives to be elected and adding one. For example, assuming that there are three candidates to be elected, and the total vote cast was 620. The latter figure divided by four (that is, one more than the number to be elected) gives 155, and this, plus one, gives 156, which would be the quota, and as not more than three candidates could secure that number, regardless of how many might be in the field, those three would be elected.

The next question is: How are the votes counted and transferred? (a) The first preference votes obtained by each candidate are noted—that is, the candidates opposite whose names the figure 1 has been marked by the voters. (b) The quota is ascertained in the manner outlined above. (c) Candidates, if any, who have received the quota, or more than the quota, are declared elected. (d) Surplus votes of these candidates who have received more than their quota are transferred, in strict proportion, to the unelected candidates indicated as the next preferences by the voters (that is, candidates having the figure 2 opposite their names).

(e) Any further candidates who, as the result of such transfer of second preferences, have received the necessary quota are declared elected. (f) The candidates lowest on the poll are then eliminated one after another, and the votes they receive are transferred in accordance with the next choice of the electors indicated thereon. This process is continued until the required number of candidates have obtained a quota, or the number of candidates not eliminated is reduced to the number of seats vacant.

It will be seen, therefore, that whereas under our present system the voter who marks a ballot for a candidate who is at the foot of the poll completely loses his representation in the public body for which the election is held, under Proportional Representation he, having failed to secure the election of his first choice, has his ballot transferred to his second choice; if his second choice fails of election, his vote is transferred to his third choice, and so on. Thus every voter, in the final analysis, is represented by a representative for whom he records a preference. Surely, a more democratic and fairer way than obtains under our present system.

(Next week some examples of how P.R. has worked, out where it has been tried will be given, and possibly some of the objections raised against P.R. answered.)

Chain of Imperial Aerodromes

London.—Right Hon. Mr. Weir, at a public welcome to the crew of the R-34 at Glasgow, stated that he looked forward to the time when there would be a chain of imperial aerodromes linking the main units of the Empire and connected by auxiliary services to the smaller nations. He said that he had great faith in the usefulness of coastal flying boats, as proposed in connection with Australian and West Indian coastal services. Military reasons, he stated, required the linking up of the Empire by definite routes, largely coinciding with the commercial routes. He deprecated the government action in monopolizing civil aviation, and anticipated great results from the rivalry of private firms.

Sir Robert Home stated that the public had not yet realized the remarkable war work accomplished by the airships. The Admiralty had started with eight and finished with a hundred—beating the Germans.

Keeping Fit

BY DR. SAMUEL HAMILTON.

It is because of the war that the perfect physical man has all at once become the idol of the world. You can make of yourself even rather late in life, almost anything you like. You are not going to get fit in one day, one month, or perhaps, a year, unless you take enough outdoor exercise to keep the circulation going and practise the athlete's first principle—to keep the system clean. He does not give his body a chance to absorb poisons. He not only takes his cold shower, after exercise, but he knows a cleansing of the intestines is important, and he takes occasionally a good regulator and liver cleanser, such as a dose of castor oil, or, what is much better, a tiny pill made up of May-apple, aloin and jalap, and sold by almost all druggists in the land as Dr. Pierce's Pleasant Pellets.

Keep the kidneys in good order also.

Avoid too much meat, alcohol or tea. Drink plenty of pure water, preferably hot water, before meals, and drive the uric acid out of the system by taking "Anuric" (anti-uric-acid). This can be obtained at almost any drug store.

Send a bottle of water to the chemist at Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., and you will receive free medical advice as to whether the kidneys are affected. When your kidneys get sluggish and clog, you suffer from backache, sick-headaches, dizzy spells, or twinges and pains of lumbago, rheumatism or gout; or sleep is disturbed two or three times a night. Take heed, before too late! Get Anuric (anti-uric-acid), for it will put new life into your kidneys and your entire system. Ask your nearest druggist for it or send Dr. Pierce ten cents for trial package of "Anuric"

Admiral Beatty Given Banquet

Unique Compliment By Sailors To Admirals Of British Fleet

Portsmouth, England. — Vice-Admiral Sir David Beatty was given an unique compliment when, with 42 of his admirals, he was entertained at dinner in the town hall here by some 500 lower deck men, and presented with a silver cigar box as a token of loyalty and affection from all the ratings in the navy.

The day was made a great occasion here, salutes being fired upon the vice-admiral's arrival, and his automobile being hauled through the streets to the town hall by sailors. Twenty thousand townspeople gathered at the town hall and cheered heartily, while the 500 hosts of the vice-admiral formed up on the steps to welcome him.

Owing to the oversupply of optical illusions it is difficult to make some men believe what they see.

It Makes New Friends Every Day.—Not a day goes by that Dr. Thomas' Eclectic Oil does not widen the circle of its friends. Orders for it come from the most unlikely places in the west and far north, for its fame has travelled far. It deserves this attention, for no oil has done so much for humanity. Its moderate cost makes it easy to get.

London Prices Fall

BABY'S OWN TABLETS OF GREAT HELP

Mothers, if your baby or growing child is sickly; if he does not sleep well at night; if he cries a great deal; if he is constipated and his little bowels and stomach are not working right, give him Baby's Own Tablets—they have proved of great help to thousands of mothers. Concerning the Tablets, Mrs. W. H. Decker, Corcoran's Siding, Ont., says: "I have used Baby's Own Tablets and have found them excellent for the little ones, and would not be without them." The Tablets are a mild but thorough laxative and are guaranteed to contain no harmful drug—that is why they always do good and never harm. They are sold by medicine-dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

ONLY TABLETS MARKED "BAYER" ARE ASPIRIN

Not Aspirin at All without the "Bayer Cross"

The name "Bayer" on Aspirin is like Sterling on silver. It positively identifies the only genuine Aspirin—the Aspirin prescribed by physicians for over nineteen years and now made in Canada.

Always buy an unbroken package. There is only one Aspirin—"Bayer." You must say "Bayer" of "Bayer Tablets of Aspirin" which contains proper directions for Colds, Headaches, Toothache, Rheumatism, Neuralgia, Lumbago, Rheumatism, Neuritis, Joint Pains, and Pain generally. Tin boxes of 12 tablets cost but a few cents. Larger "Bayer" packages.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Germany. It is well known that Aspirin means Bayer manufacture, is sold by the public against imitations, and the name of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

Note and Comment

The Sugar Situation

There is still a keenly felt shortage of sugar in the province and according to advices received there seems to be little hope for an early easing of the situation. One huge firm in Regina was recently notified that it was impossible to obtain sugar from the east, and that their supply would have to be curtailed seventy thousand pounds. With the greatly restricted supply from the west, and none from the east, the situation is rapidly becoming alarming. Then on top of this, comes the news that sugar is going to advance in price! Sales of raws now being made for future delivery, indicate that an advance of between 1 to 2 dollars per hundred will take place before next spring.

Taken all round then, the sugar outlook for the west this coming fall and winter is not very bright and it is to be hoped that the Government will do something to relieve the situation besides the appointing of boards and commissions to "enquire".

What Shall We Do

On Armistice Day?

November 11th next is Armistice Day and has been fittingly set aside as a holiday. The point is, how shall we spend the day here at Monitor.

We do not know whether or not any organization in the district has arranged for some affair on this day, but it has been suggested that the Village of Monitor throw the doors wide open, and have a Grand and Glorious free-for-all community Gala day. This is a splendid idea, and should be taken up at once in order that arrangements could be completed in time.

It is certain that something must be done, and there is no need for all to go away and leave the place deserted. Let's invite everyone here instead and show our country friends what Monitor can do in the way of entertainment.

Weather permitting, sports could be held in the forenoon, baseball and basketball in the afternoon. In the evening we could have a genuine home-talent concert and wind up continued next column

The Expenditure of \$610,000,000

How the last Victory Loan was spent

For Demobilization

For Trade Extension

BEFORE buying Victory Bonds again you may want to know how Canada used the money you loaned her last year.

Canada borrowed the money to carry on the war and to provide credits for Great Britain and our Allies.

CONSIDERABLY more than one-half of the Victory Loan 1918 was spent on our soldiers. This included \$312,900,000, for paying them, feeding them, bringing them home, separation allowances to their dependents, maintenance of medical services and vocational training schools.

\$59,000,000 of the Victory Loan 1918 was paid on account of authorized Soldiers' gratuities.

\$9,000,000 was spent at Halifax for relief and reconstruction after the disaster.

Other disbursements were not, strictly speaking, expenditures, but National Re-investments.

To Great Britain for example:

\$173,500,000 was loaned for the purchase of our wheat and cereals.

\$9,000,000 for our fish.

\$30,000,000 for other Foodstuffs.

\$2,900,000 for Canadian built ships.

\$5,500,000 to pay other British obligations in Canada.

Making in all \$220,900,000 advanced to Great Britain.

To our Allies, we loaned \$8,200,000 for the purchase of Canadian foodstuffs, raw material and manufactured products.

The Re-investments will be paid back to Canada in due time, with interest.

These credits were absolutely necessary to secure the orders for Canada because cash purchases were impossible.

They have had the effect of tremendously helping agricultural and industrial workers to tide over the depression that would have followed the Armistice, had we not made these credit loans.

As far as money is concerned, 1919 has been, and is still—just as much a war year as 1918. Our main expenditures for war cannot be completed until well on into 1920. Thus another Victory Loan is necessary—Get ready to buy.

Men, Men!**Try It Tonight—
Feel Fine Tomorrow**Simple Way to Get "Pep." To Be
Put Right On Your
Feet

When a man has lost ambition to "dig in" and stay at things—when he complains of headache, fullness in the right side, pains in the shoulder blade—it's purely a case of "Liver."

These symptoms invariably indicate a clogged, inactive liver. The body can't get rid of its wastes, and the whole system is half paralyzed. Dr. Hamilton's Pills stimulates the liver into activity in one night. Acting a mild vegetable laxative, they produce results in a few hours. The bilious headache and constipation are cured, spirits rise, complexion clears, animation returns. Nothing is the calendar so efficient for that tired, lazy feeling as Dr. Hamilton's Pills. Very mild, does not interfere with work, invariably do lots of good. Try a 25c box, all dealers.

**Blow Struck At
German Shipping**Series of Consequences Which Ulti-
mately Will Be Fatal

Philip Heineken, director-general of the North German Lloyd, discusses the future of German shipping and Germany's economic situation generally in the North German Lloyd's new year book. Heineken says the destruction of German shipping follows naturally from the entire destruction of Germany's economic life decided on by the peace treaty, but that German shipping is hit twice as direct, besides the peace treaty's direct effects. There are a whole series of sympathetic consequences which ultimately will be fatal for German shipping. These include diminution of German territory, which reduces the number of docks, iron works and coal mines, thereby reducing the capacity for shipping construction. The indirect influence of territorial cessions is great through the transference of German railways to foreign possession, and through Rhine navigation, and partially Visula navigation coming under foreign control. The transference of industries in other regions—for example, the potash mines in Alsace, the textile factories and iron works in Lorraine, Luxembourg, etc.—means serious injury to shipping owing to the loss of transport in consequence of the diversion of traffic from German ports and ships. Undoubtedly, the industries will conduct their import and export from Antwerp or French ports, through French and Belgian firms, which completely excludes the employment of German vessels, especially since the foreign lines have had sufficient time to work themselves into this traffic.

In addition, account must be taken of Germany's renunciation of her overseas possessions and of the realization of the Entente's demands for damages, of the costs of contesting energy price court judgments, which contravene international law, and finally of the decision that all German property abroad is to be reckoned only at the peace rate of exchange. Germany is robbed of all her overseas plant and harbor concerns for navigation. The German seaport towns' vitality is intentionally weakened by the Entente's having insured to itself the right to appropriate to itself the emigration traffic arranged by Germany, to utilize harbors and inland waterways practically free from any German control, and finally to make quite generally, and with-out reference to German shipping interests, any kind of agreements whatever with Germany's former allies which Germany must accept without seeing them.

Heineken says it would be foolish to deny that the ton-for-ton principle ruthlessly carried out in the Peace Treaty has struck German shipping to the marrow.

SUNDAY SCHOOL LESSON

LESSON FOR OCTOBER 12

FISHERS OF MEN

1. Jesus Preaching in Galilee (vv. 14, 15).
The reason why he changed from Judea to Galilee was the growing opposition to him. The fate of John the Baptist he accepted as foreshadowing his own death. The rejection of the forerunner meant the rejection of him whose advent he heralded. Providence moved him to a more remote region, where he would attract less attention and be free from opposition. Besides this it gave less favored people an opportunity to hear the gospel according to the prophetic word (Isa. 9:1, 2). It foreshadowed the gospel to the Gentiles.

1. What he preached (v. 14). The gospel of the Kingdom of God, which meant the good news of the near approach of the Kingdom of God, when the rule of God as predicted by the prophets would be realized. It should be carefully noted that the gospel of the Kingdom differs from the gospel of the grace of God.

2. How he preached (v. 15). (1) "The time is fulfilled and the Kingdom of God is at hand." This meant that the time had now come for the appearance of the Messiah and the establishment of his kingdom. (2) "Repent." This meant that the people should turn around, change their minds and attitude toward Christ the King and accept him as their King. This is a message which needs to be sounded out today. People should be called upon to repent of their sins. (3) "Believe the gospel." Then, as now, men need to believe the gospel of Christ's death for their sins and resurrection for justification (1 Cor. 15:1-4; Rom. 4:25).

11. Jesus Calling Disciples to Become Fishers of Men (vv. 16-20).

1. Who were called (vv. 16, 19). Simon and Andrew, John and James, two pairs of brothers. It is usually best to render the Lord's service in fellowship—in pairs. This is not only necessary for effective testimony, but for needed fellowship on the part of workers and protection of the witnesses. These all had previously been called to Christ for salvation; they had become his disciples (John 1:36-42). They are now called to service. This is always his way. We are first called to be disciples, then called to have fellowship with him in service.

2. From what they were called (vv. 16, 20). They were called, from positions of definite service. God always chooses his servants from the ranks of the employed. The lazy man is not likely to have a call.

3. To what they were called (v. 17). To be "fishers of men." They no doubt had been successful fishers. The qualities which made them good fishermen, namely, patience, bravery to face the storm and night, and perseverance which led them to toil all night, though no fish were caught, would make them good fishers of men. It requires patience, bravery and perseverance to win souls for Christ.

4. Their call to obedience (vv. 18, 20). To obey meant sacrifice, painful separation, to give up all business interests and leave their father behind. Regardless of the cost, they yielded prompt obedience. They gave up business and home, not even inquiring as to where their salaries were to come from. They put their trust in him who called them, believing that he was able to supply all their needs.

5. Their reward (v. 17). These four men have yielded wondrous influence in the world. Their names have become immortalized. Had they remained at their business they would only have been humble fishermen. When Christ calls, let us promptly obey, for eventually it will pay. It will yield one hundredfold in this life, and eternal life in the world to come.

American Cities

The possibilities of aerial development are beyond those of all other means of communication and transportation now known to man. During the international race, which had as its primary object proof as to the feasibility of establishing a fast mail service between several Canadian and American cities, letters and newspapers travelled from New York to Toronto or vice versa in a very few hours. What the ultimate establishment of a regular service of this kind, which could be maintained with reasonable certainty for several months in the year, would mean to the business interests of both communities is impossible of estimation at this time.

In Britain, where the airplane is in steady use for commercial purposes, including a passenger and mail schedule from London to Paris, the benefits of the air route have been proven beyond all possibility of discussion. The development there is continuing with a breadth of vision and a rapidity that show to what extent the British people regard the importance of aerial leadership in every phase of its application to modern conditions.

The international contest, which has had its advertising value for Toronto, and Canada generally, as well as for the Canadian National Exhibition, has rather emphasized the reliability of the airplane as well as its adaptability for the services of peace.—From the Toronto Globe.

**A Programme
Of Reconstruction**Promote a Good Understanding Be-
tween Capital and Labor

Under the second heading, i.e., conservation of our human resources, we should (1) make up our minds individually to do some useful work and to do it thoroughly; (2) promote the better organization of industry from a social standpoint, in other words, a good understanding between capital and labor; (3) organize our systems of transportation, storage and distribution so that products may be conveyed from producer to consumer with the minimum of effort and expense; (4) encourage the work of soldiers' civil re-establishment by practical sympathy with the returned soldier; (5) as voters and citizens, insist on efficiency in public hygiene and sanitation; (6) reduce our abnormal infantile mortality; and (7) support all sound schemes of town planning and better housing, and never relax our efforts till every family in the country has a decent home to live in.

The aims enumerated above embody a programme of reconstruction. Some of them lie outside the field of the commission of conservation, but most of them are within the scope of the work that it exists to promote.—From Conservation.

To Ensure Coal SupplySea Coaling Stations Are Reserved
for British Ships

Washington.—The British Embassy has informed the state department that owing to the railroad strike in England, the supply of bunker coal at Gibraltar, Malta, Egypt, Sierra Leone and British coaling stations in the Atlantic probably will be restricted for the present to outward bound British vessels.

Closing of some of the principal ports of the United Kingdom, also probably will be necessary during the strike, it was said, in order to prevent congestion, while an order holding all British vessels bound for the British Isles either in the leading ports or at a port of call, was said to be imminent.

Cambridge, Massachusetts.—The comet discovered recently by Dr. Joel H. Metcalf, of the Harvard Observatory, will become visible to the naked eye within a short time. It is now of the eighth magnitude, but on October 16 will be four times brighter and about 44,000,000 miles from the earth. It is now near the sun, and its course will take it close to the polar star.

The Why? of Another Victory Loan

WHEN, on the morning of November 11th, 1918, the guns were hushed and glad tidings flashed across the world, there followed with the Nation's Prayer of Thanksgiving, one yearning query, which found echo in the faster beating hearts of wives, mothers, fathers, brothers, sisters and sweethearts. That query was, "How soon will our boy be home?" And, from France and Flanders, from Italy and Egypt, from Palestine and from far-off Siberia, there came an answering echo, "How soon, how soon, may we go home?"

CANADA caught the spirit of these longings, and at once resolved to satisfy them. It was an appalling task. Shipping was tragically scarce. The composition of the Army of Occupation had not then been settled. And other parts of the Empire as well as Canada were looking for the speedy return of their men.

THE problem was this. The half-million men that Canada had overseas had taken more than four years to transport to the field of battle. To bring them home in a few months was a gigantic undertaking—one to tax all Canada's ingenuity and resources. Canada solved the problem, but it meant crowding into a few short months, an expense for demobilization which it was impossible to foresee.

THEN, too, besides the sentimental aspect of the necessity for bringing the men home quickly the economic side could not be overlooked. That was, to transform efficiently and speedily the nation's army of fighters into a national army of workers.

Need Divides Itself in Two Parts

Obligations to Soldiers

The answer to the question "Why does Canada need another Victory Loan?" divides itself into two parts. (a) To finish paying the expenses of demobilization, and the obligations we still owe to our soldiers. The obligations to soldiers include: That already incurred cost of bringing home troops from overseas. The payment of all soldiers still undemobilized. This includes more than 20,000 sick and wounded who are still in hospital, and who of course remain on the Army payroll till discharged. The upkeep of hospitals, and their medical and nursing staffs, until the need for them is ended. These three items alone will use up at least \$200,000,000 of the Victory Loan 1919.

Gratuities

There is also the gratuity which has been authorized, and has been and is being paid to assist soldiers to tide over the period between discharge and their re-adjustment to civil life. For this purpose alone, \$61,000,000 must be provided out of the Victory Loan 1919, in addition to the \$59,000,000 already paid out of the proceeds of the Victory Loan 1918.

Land Settlement

Furthermore, soldiers who desire to become farmers may, under the Soldiers' Land Settlement Act, be loaned money by Canada with which to purchase land, stock and implements. The money so advanced will be paid back; meantime each loan is secured by a first mortgage. Up to August 15th, 29,495 soldiers had applied for land under the terms of this Act; and 22,281 applications had been investigated, and the qualifications of the applicant approved. For this purpose Canada this year requires \$24,000,000.

Vocational Training

For this work which, with the Vocational Training and Soldiers' Service Departments, embraces the major activities of the Department of Soldiers' Civil Re-establishment, an appropriation of \$57,000,000 is necessary.

Those who give thought to our outstanding obligations to soldiers, and to our need for national working capital, cannot fail to be impressed with the absolute necessity for the

These national expenditures are war expenses. They will be accepted readily by every citizen who gives thought to the task which Canada faced following the Armistice, and to the success with which she has met it.

National Working Capital

Canada needs national working capital, so that she may be able to sell on credit to Great Britain and our Allies the products of our farms, forests, fisheries, mines and factories.

You may ask "Why sell to them if they can't pay cash?" The answer is, "Their orders are absolutely essential to the continuance of our agricultural and industrial prosperity."

The magnitude of these orders and the amount of employment thus created, will depend upon the success of the Victory Loan 1919.

The "Why" of Credit Loans

Farmers and manufacturers (and that includes the workers on these orders) must be paid cash for their products. Therefore, Canada must borrow money from her citizens to give credit, temporarily, to Great Britain and our Allies. Actually, no money will pass out of Canada. If Canada does not give credit, other countries will; and they will get the trade, and have the employment that should be ours, to distribute amongst their workers. And remember, we absolutely need these orders to maintain employment. If we don't finance them business will feel the depression, employment will not be as plentiful, and conditions everywhere will be adversely affected.

For Transportation

Money must also be available to carry on the nation's shipbuilding programme, and other transportation development work.

For loans to Provincial Housing Commissions who are building moderate priced houses.

These, then, are some of the things for which Canada needs national working capital. She is in the position of a great trading company, and her citizens who buy Victory Bonds are the shareholders.

Huge Stocks Held In Cold Storage

Winnipeg.—There is sufficient butter in cold storage in the warehouses of the Manitoba Cold Storage Company and the William Davies Company to take care of Manitoba's home consumption for nearly five months, reports filed by the managers of the two plants at a recent session of the Board of Commerce food probe revealed.

Gordon W. Shantz, general manager of the Manitoba Cold Storage Company, stated that there are in storage at present 1,367,000 pounds of butter. John MacPherson, manager of William Davies' plant, has 367,478 pounds of butter in storage, making a total of 1,734,478 pounds of butter stored in these two warehouses at present. Both managers declared that this was nothing out of the ordinary and certainly not an abnormal condition.

The Manitoba Cold Storage plant has a matter of 1,110,000 dozen eggs in storage.

Particulars of the butter stored with the William Davies Company showed that Arthur Lobby, M.L.A. for Rockwood, has 13,500 pounds.

Over a half million pounds of frozen beef is stored by the same firm for Gordon, Ironside and Fares, also 30,000 barrels of pickled pork. One of the men assisting with the work of the commission made the comment at the close of the session that he believed there would be discovered 3,000,000 pounds of beef in cold storage in Manitoba before the board was through its probe.

Hun Activities In Baltic

Germany's Recall of General Von Der Goltz Will Not Satisfy Supreme Council

Paris.—Germany's recall of General von der Goltz from the Baltic region will not satisfy the Supreme Council, it is asserted, the Council being determined to place economic pressure on Germany until all German soldiers are withdrawn from the Baltic.

While it cannot be said that a blockade is actually on, steps are being taken to bring about financial pressure which will speedily cut off the German food supply and bring the German public to a realization of the fact that German activities in the Baltic states must cease.

Custom Receipts

Ottawa.—Customs receipts for the six months of the fiscal year ending September 30 totalled \$82,269,212, an increase over the same period last year of \$256,323. For the month of September alone receipts totalled \$14,833,240, which was \$2,756,729 greater than in September, 1918.

Notables Marked For Assassination

Testimony Given By Former Military Attache of German Consulate

San Francisco, Cal.—Charles M. Schwab, Sir Cecil Spring-Rice, former British Ambassador to the United States; Lord Fisher, of the British Admiralty; the late Lord Kitchener, and the British vice-consulate at Ensenada, Mexico, were marked for assassination by agents of the German government, according to sworn testimony given by former First Lieutenant Wilhelm von Brincken, formerly military attache of the German consulate in San Francisco, to Commissioner of Immigration Henry M. White, of Seattle, Washington.

A transcript of the statement was received here by Attorney Henry M. Owens, von Brincken's legal adviser in San Francisco. Von Brincken is serving a two-year sentence in the federal penitentiary at McNeil's Island for the part he played in the so-called Hindu conspiracy case.

SUMMER COMPLAINT IS A SERIOUS BOWEL TROUBLE

Very few people escape an attack of Summer Complaint. It may be slight, or it may be severe, but nearly every one is liable to it.

You can't tell, when it seizes on you, how it may end.

Allow the profuse diarrhoea, the vomiting and purging to continue for a day or two and you will become weak and prostrated.

Just as soon as the bowels become loosened up, get a bottle of Dr. Fowler's Extract of Wild Strawberry and check these unnatural movements, and thus prevent the system from becoming weakened.

Mrs. L. J. Allen, wife of the well known wholesale and retail Fish Dealer, 44 Hill St. Amherst, N.S., writes:—"I have four children, the oldest being eight years old. Every summer they were troubled with Summer Complaint. Doctors' prescriptions did not seem to help them any. One day a friend asked me to use Dr. Fowler's Extract of Wild Strawberry. I at once got a bottle, and to my surprise and wonder, I soon saw a change in them. I now keep a bottle of it in the house all the time, and will recommend it to any mother."

"Dr. Fowler's" is 35c. a bottle. Get the original which has been put up for the past 74 years by The T. J. Milburn Co., Limited, Toronto, Ont.

D'Annunzio Aids Regulars

Blockade of Fiume Is More Severe Than Formerly

Rome.—Orders closing the Jugo-Slav frontier have led to the chief of staff of the 26th Italian regiment army corps at Abbassia to interview Captain d'Annunzio's chief of staff and discuss measures to be taken. This has resulted in the sending of some of Captain d'Annunzio's volunteers to hold the armistice line according to the Epoca, which adds: "The event shows the cordial collaboration between the d'Annunzio troops and the regulars."

The correspondent of the Epoca says the blockade of Fiume is more severe than formerly, even mail being held at the frontier. There is food sufficient for three months for the population of Fiume.

Milk Advances In Toronto

Instead of 15 Tickets for a Dollar Consumer Will Receive Only 13

Toronto.—Under the order of the Board of Commerce, the price of milk will be increased here. Instead of 15 tickets for \$1, the consumers will now receive 13 tickets for the same sum, which means an advance of a cent per pint.

The board permitted an increase to the farmer of 45 cents a can, which, upon the basis of consumption of 6,000 cans per day, means an increased income to the farmers of \$2,700 a day, or \$985,000 per year.

Rumanians Seize German Plane

Manned By Four Officers Who Resented Their Arrest

Geneva.—Rumanian troops have seized a big German biplane carrying 300,000,000 paper roubles and a miniature but complete printing press at Hotin, Bessarabia, according to the Rumanian bureau at Berne. The plane, which was en route to Moscow, was forced to land at Hotin because of a leak in the gasoline tank. It was manned by four German officers, who are said to have resented their arrest. The roubles were all said to have been new notes.

Russian General Must Apologize

For the Arrest of Two United States Officers

Vladivostok.—Maj.-Gen. Graves, commander of the United States forces in Siberia, has demanded an apology from General Rozanoff, in command of Russian troops in Primor province, for the arrest of two United States officers, Captain L. P. Johns and Corporal Benjamin Speerling, and the flogging of the latter by Cossacks commanded by General Kalininkoff. An investigation of the conduct of a Japanese officer at Imari, the place where the arrests took place, has also been begun by the Japanese high command. The incident, which occurred September 5, is considered one of the most serious to occur since the allies landed in Siberia. The men were arrested by a detachment of Cossacks, who claimed the Americans were not provided with identification papers.

May Flame Into War

Italian Situation Becoming More of an International Question

Paris.—The inflamed conditions in the Adriatic region and the dissolution of the Italian parliament for the holding of a general election on November 16, as Rome dispatches have announced, is giving the supreme council much concern, in view of the possibility of all the Balkans becoming involved in the turmoil.

In peace conference circles the approaching Italian elections are regarded as a struggle between the war and peace parties, or rather between the forces on the military side and those of socialistic and pacific tendencies, while it appears that d'Annunzio and Fiume would be an issue. The feeling is growing in Paris that as d'Annunzio has indicated that his aspirations include far more than Fiume, the Italian situation is daily becoming more of an international question.

The view is expressed here that the agitation might flame into war any day, if, for instance, a Jugo-Slav should happen to be killed by Italian troops.

Too Much Canadian Bacon

So Plentiful That It Is Being Sold To Soapmakers In England

Montreal.—The Herald quotes a man who has just returned from Liverpool as claiming that unrequited Canadian bacon was sent to the soap factories in England. "Canadian bacon is a drug on the market in England," says the Herald's informant. "When I was at Liverpool 2,000 cases of Canadian bacon were going bad on the wharves there. It was sold to Lever Bros. to melt down to soap. Cases of Canadian bacon of 500-pound lot cases sold for 12 1/2 shillings, or 28 cents for 500 pounds."

Retailers Will Be Called To Give Evidence

Toronto.—Another sitting of the Board of Commerce will be held here when Judge Robson, chairman, W. F. O'Connor, vice-chairman, and F. A. Acland, deputy minister of labor, will be the commissioners present. The probe will embrace the retailers' end of the high price of wearing apparel. Retailers will be called to give evidence, and the costs will be worked back to the manufacturer to see where the great spread comes in the prices of all textiles at the present time.

The sitting of the court promises further interest in the fact that the "big five" packers will be on hand to fight to the last ditch the order bringing down the price of wholesale pork products.

U. S. Shipyard Tied Up Now

About 60,000 Men in Grip of Great Industrial Struggle

San Francisco.—Involving approximately 60,000 men, including both skilled and unskilled labor, San Francisco, Oakland and Alameda are in the grip of industrial disturbances which have greatly hampered industry in the entire San Francisco Bay district. Shipyard and iron trades workers, tailors, stevedores, taxi drivers, clerks, street railway employees, ferry boat employees and river steamer men are affected.

The most serious development in the labor situation came when 25,000 shipyard and iron trades workers in Oakland and Alameda, and 30,000 in San Francisco, struck. The shipyard and iron workers went out in an effort to force the payment of a wage increase of eight cents per hour.

Union officials say the tie-up of the shipyards is complete. No statement was forthcoming from the California Metal Trades Association.

Blockade Begins

Paris.—The blockade of Germany which was threatened by the allies in case the German troops of General von der Goltz were not removed from the Baltic region has started, according to the Intransigent. "No food ships, it declares, will be permitted to start for Germany until further orders are issued."

Vessels now on the way to German ports, however, will be permitted to proceed to their destinations.

St. Louis, Mo.—Warning that if Germany is permitted to continue her "nefarious operations" in Russia, in ten years she would become as powerful as before the war, David B. Francis, American ambassador to Russia, talking before the convention of the American Bankers' Association, said the real solution of industrial unrest in Russia and the United States is in the peace treaty. He urged immediate ratification of the League of Nations.

He charged that the Brest-Litovsk treaty was arranged by Lenin with Germany, and that Lenin and Trotsky were German agents. Labor troubles all over the world emanated from Russia, he said, and said it was impossible to establish peace in Europe while the Bolsheviks reigned in Russia.

Creek Valley News

A little lecture on precaution against fire was given by the teacher this week and leaflets will shortly be sent round to every taxpayer in both Creek Valley and Basin Lake districts by the Soc-Trens.

The Girls Club have had a very busy week arranging and practicing for their social on the 17th and giving their special invitations personally. Our local musical expert, Mrs. Harley has promised to contribute one item to their programme and several OLD men of the district have been surprised by similar requests. Clarence Purdy and Bernard Harley, our budding "Paderewskis" also are down to perform so things are likely to be lively.

If the church services are going to be abandoned at Creek Valley school as seems likely at present, the secretary intends to arrange for singing meetings for music lovers; but nothing will be arranged till the question of services is definitely disposed of.

Heavy Fine For
Having Bad Eggs
In Possession

The Act recently passed by Legislature concerning the buying and selling of eggs, does not, as is generally supposed apply only to the storekeeper who handles the eggs. The Act reads that NO Person, firm or corporation may buy, SELL or HAVE IN POSSESSION FOR SALE eggs unfavorably affected according to the following terms denoting poor condition: mouldy eggs, black rots, heavy blood rings, mixed rots, yolks firmly stuck to the shell or any other unwholesome condition making them unfit for food, such conditions running in excess of 1 per cent of the total.

Violations of the provisions of this Act entails a penalty not exceeding \$100 and costs.

Victory Loan 1919
Campaign Has Started

The Southern Alberta Victory Loan campaign is off to a good start. All committees have been appointed. district captains have been named and organization has in most cases commenced.

The Southern Alberta Victory Loan campaign is off to a good start. All committees have been appointed. district captains have been named and organization has in most cases commenced.

There are very many reasons for subscribing to the Victory Loan. In the first place, it will help the returned soldiers. The returned soldier could not go on without the Victory Loan. Every returned soldier should be an enthusiastic booster for the Victory Loan, because without it there is no use in talking about gratuities or anything like that, as the money would not be there.

It will help trade. Every farmer should be a booster for the Victory Loan, for upon it depends the sale of his crop at the good price he is getting for it today. If the Victory Loan fails the crop movement must cease; if the Victory Loan succeeds the crop will move out and the money will move in.

It will increase prosperity. Canada has subscribed about a billion dollars to its own Victory Loan, and every time it has put over a loan the bank savings throughout the Dominion greatly increased. Subscribing to the Victory Loan is a paying out money with one hand and taking it back with the other in increased

business, and having the bonds as well.

The Victory Loan has no politics. Following is a letter from Hon. MacKenzie King, leader of the Liberal party, to Sir Henry Drayton, minister of finance, which shows the country is united on behalf of the loan. A dispatch from Ottawa says:

OTTAWA, Oct. 3.—Thorough endorsement of the Victory Loan, 1919, is expected by Hon. W. L. Mackenzie King, leader of the Liberal party in the Dominion, in a letter addressed to the minister of finance, Sir Henry Drayton. This is his letter:

"My dear Sir Henry: I am pleased to join with you in commending the Victory Loan to the people of Canada. It is imperative that Canada's credit should be maintained. As the government finds that borrowing is a necessity to meet existing conditions, it is in every way desirable that the amount required should, if possible, be raised within Canada itself. I hope, therefore, that this loan may be over-subscribed by citizens of the Dominion.

"You appreciate, of course, that in expressing a desire to see the loan a success, such obligation as I may have in the matter of criticizing unnecessary or extravagant public expenditures is increased rather than lessened; and that this endorsement is given upon your assurance that the organization of the campaign and everything about it is absolutely and entirely non-political."

"Yours sincerely,
(Signed)
W. L. MACKENZIE KING."

Jack Deadmarsh is taking painful lessons on his tenor horn. To hear him on these still frosty evenings reminds one of the far north and the howl of the malamute. Cheer up Jack, we all began once.

Every Farmer
In This District
Should Read The
Nor'-West Farmer

Western Canada's Oldest Farm Paper

If you are already a subscriber you will want to renew your subscription for another year, and if you are not a subscriber to it you ought to be. No farmer in these days of high prices and labor shortage can afford to do anything but his very best. Through a good farm paper you will get ideas worth many times the small subscription price. Each issue of The Nor-West Farmer is full of valuable information that any up-to-date farmer can use to his own direct advantage. It is edited for the whole farm family. If any reader wants information on any subject relating to either their farm problems or anything else The Nor-West Farmer information bureau will get that information for them. Their official veterinarian and legal adviser is at the service of every subscriber, free of all charge. If you have a weed problem, a soil drifting problem, a feed problem, tractor, automobile, or gas engine trouble of any kind, read The Nor-West Farmer, and you will soon get a wealth of ideas from the experience of other farmers who have experienced and solved similar difficulties. The Nor-West Farmer is a "round-table" around which the best farmers of Western Canada meet. Will you be one of them?

Local Happenings

Mr. Hayes and family will shortly take up their residence in our city for the winter.

Miss Myrtle Tarr had a party on Tuesday, to celebrate her first birthday.

Bigger and Better Band in Monitor than ever before. All turn out and jazz a little at their new music at the dances they are giving on Chautauqua nights.

W.S. McCulloch, for the past few years Editor, and general factotum of this brilliant journal, left on Sunday last for his native village, Hamilton Ont. (via Provost and Eye Hill). Just what Mac intends to do in Hamilton is not known yet, but it is rumored that he intends to enter the ministry. His many friends wish him every success in his new venture.

The Church And Its Work

By The Rev. W. S. Wickenden.
B. A. L. Th. Rural Dean

How did the Church Begin?

It has been said that the Church of Christ is built upon an empty grave. Seven weeks after the Crucifixion, St. Peter and the other Apostles preached in Jerusalem the Resurrection of Jesus Christ. The Apostles, who at the betrayal of our Lord, forsook Him and fled in fear, were transformed into bold witnesses and declared in plain language to the Jews their sin in crucifying Christ and the work of God in raising Him from the dead. There was no attempt on the part of the Jews to deny the truth of what the Apostles said, and no less than three thousand believed their testimony and became united in one fellowship, being baptised, joining together in the prayers and in the Lords Supper. These people who joined the Church and became some of its first members, did so because they were convinced of the Resurrection of Jesus and so they straightway determined to trust Him for forgiveness and to guide their lives. Thus the Church began.

to be continued.

LOCAL ITEMS

Thank the lord Monitor is blessed with a good dentist.

Mr. Tom Ulph, our worthy tailor has taken up his winter quarters in A. Garries office.

Monitor scouts report large flights of geese flying from the East end of Sounding Lake on through Eye Hill.

Farmers from New Bridgen are getting from eight to twelve hundred bushels of wheat and several loads of the grain have already been sold to the local elevators.

Miss A. Martin, of the staff of the local apothecary emporium, who has been spending the past week recuperating on her father's ranch, has returned to town. While on the farm, she endeavored to "bust" a bronk—she is now much better.

The Every Night Out girls Club are busy preparing a surprise for hallow 'een night.

All the boosters in Monitor are out for the Chautauqua. They say they are going to put Monitor on the map for 3 days anyway. Why worry they orate, we'll all be dead in a hundred years.

We are pleased to report that there has been no sicknesses in the Bank staff this last three or four days.
